Que es Global QSL?

Que es Global QSL?

Global QSL es un sistema moderno para confirmar nuestros QSOs con las tradicionales tarjetas QSLs.

Global QSL es una imprenta de QSLs que nos da el servicio tradicional para imprimir nuestras tarjetas.

Global QSL es una imprenta de QSLs que nos da la opción de imprimir las QSLs con los datos de nuestros QSOs en ellas (hasta 5 QSOs x QSL) y Global QSL las despacha directamente al buró de cada país.

Como funciona Global QSL?

Como funciona Global QSL?

Usted se baja un Software a su PC.

Lo instala con el Password que le da en la web.

Usted diseña su QSL con la foto que quiera agregar.

El Software tiene una base de datos con logos, banderas, Etc.

Sube su diseño a la web www.globalqsl.com

Sube en formato ADIF las QSLs que quiere mandar a imprimir.

Sus QSLs saldrán impresas con los datos de/los QSO/s.

Se despacharan a cada buró de cada país.

Azar, 4X6MI, con 32 años de experiencia en rubro imprenta, haciéndolo por dos generaciones.

Paul, 4X6UU, es técnico electrónico hace 41 años, apasionado del DX y Contest.

Como es la Web de

<http://www.globalqsl.com>

The Revolutionary technology of QSL cards exchange!

Forget about spending expensive time and big money for QSL cards printing, filling out, sorting and sending!

No need no more to write yourself QSL cards or print labels! Don't sort your out-going cards, no more trips to the out-going and in-coming QSL bureau.

You only pay for the amount of cards you use, no loss of cards.

Don't waste time, enjoy ham radio and the fun of getting QSL cards without the burden of writing them.

Upload your ADIF log file

Please upload only ADIF format log files.

If you aren't sure if your log is ADIF format, use any text editor like 'NotePad' to look at the .adi file you are going to upload, and verify that it is in the format described in [this ADIF standard](#).

You can upload only one ADIF file with .adi extension per each call sign.

Also, for faster upload, you can upload ADIF file in the ZIP. (Zip file should contain only one .adi file).

How to upload?

1. Select one call sign from the list
2. Click the BROWSE button and find ADIF log file on your computer
3. Click the «Upload ADIF» button to upload the file
4. Now have patience and wait a few minutes. The task of converting the ADIF format into our database takes a while

Information for SWL: Currently, GlobalQSL don't support upload ADIF files for SWL.

Please use [this form to manually enter your log](#).

Current status of last uploaded LOGs:

Call sign	Date of last upload	Good records	Errors	Status	
AY8A	20-Dec-2010 06:38	4725	0	The transaction is complete! The QSLs will be printed soon.	①②③
